

PART THREE

Prices for Market Operator Activities

10. The following prices and conditions apply to activities of the market operator subject to regulation

10.1. The price for registration of a clearing entity in the market operator's information system is

CZK 10,000.

10.2. The price for a clearing activity is

CZK 1,000 per month.

The price is charged to the registered clearing entity.

10.3. The price for clearance is

CZK 1.07 per MWh.

The price is charged for gas consumed by the customer, gas producer, transmission system operator, gas storage facility operator or distribution system operator.

Pursuant to Section 17d of Act No. 458/2000 Coll., as amended, a special fee is added to the price for clearance at a rate specified by a government regulation.

10.4. The price for the provision of actual values to market participants is

CZK 1,000 per month.

The price is paid by a registered participant in the gas market who is not a clearing entity and, based on agreement with the market operator, uses the actual values for the purposes of billing the supplies of gas and related services.

The price is charged by the market operator to a registered participant in the gas market in those months when the participant was registered with the market operator for at least one day and simultaneously was not a clearing entity. If a registered participant in the gas market becomes a clearing entity for a part of a month, only the price for the clearing activity pursuant to paragraph 10.2 is charged to the participant for the given month.

10.5. The price for the amount of gas traded on the organised gas market is

CZK 0.30 per MWh.

10.6. The price for the activity of provision of data from the records of business transactions

on the gas market organised by the market operator is

CZK 2,588 per month.

This price is paid by market participants who, according to REGULATION (EU) No 1227/2011 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 25 October 2011 on wholesale energy market integrity and transparency, are required to provide the Agency for the Cooperation of Energy Regulators with records of transactions on wholesale energy markets organised by the market operator.
